Use 1 ply of Olive Splendor® to work the Algerian Eyelet stitches over 4 threads – 2 rows within the design area and 1 at each corner.

Algerian Eyelet Stitch

Always stitch from the outside to the center. If you want a “pulled” look with a more obvious hole in the center, pull the thread when you bring the needle up at the outside of each leg of the stitch.

NOTE: Grid lines in stitch diagram represent one thread of your evenweave or linen fabric. Numbers are shown where your needle comes up from beneath the fabric.
