AMADEUS STITCH

1. Work center Amadeus cluster.
Come up at 1, go straight to 2 and then down leaving the stitch a bit slack. Come up at 3 with needle to the outside (in this instance left) of the straight stem. Pull the 1-2 stitch snug as you bring the needle up. Go down at 4, over 1-2 stitch. Continue in like manner until 15-16 stitch is completed. Run thread under work on the back. Come up again at 1 and proceed to work other half of stitch. Work 3 more Amadeus stitches to form cluster. Straight sides are shared.
2. Work Upright Crosses around entire cluster.
