Master Chart—right half of design

1. Work center Amadeus cluster. Come up at 1, go straight to 2 and then down leaving the stitch a bit slack. Come up at 3 with needle to the outside (in this instance left) of the straight stem. Pull the 1-2 stitch snug as you bring the needle up. Go down at 4, over 1-2 stitch. Continue in like manner until 15-16 stitch is completed. Run thread under work on the back. Come up again at 1 and proceed to work other half of stitch. Work 3 more Amadeus stitches to form cluster. Straight sides are shared.

2. Work Upright Crosses around entire cluster.

3. Do irregular Rhodes Stitches inside Amadeus eyes. See count on chart at left. Thanks to Jean Hillon for her published Amadeus Stitch.
