All stitches will be done with thread as it comes off the card.

Note: For purposes of this design each square in my diagrams represents one hole on the canvas, and each horizontal or vertical line is one thread of the canvas. For the numbered stitch diagrams, the needle will come up on the odd numbers and go down on the even numbers. Also Figures that have 2 rows of numbers, like Jessicas, share the same inner hole and are just shown this way for easier reading, see example:

Note: With most all Jessicas, you will achieve a neater appearance by placing the last or 4th side of stitches, numbers 22 and 24, behind the first row of stitches, numbers 3 and 5.
